# PATH BASECAMP

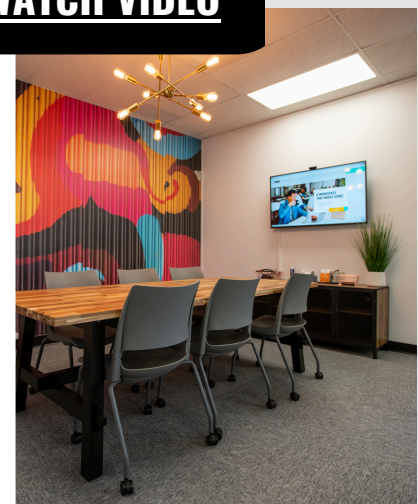

*1911 Broad St.*

Our second location, Path Cowork Basecamp, is located in downtown Regina and includes 25,000+ square ft. of flexible and private workspace options to accommodate any sized team. This is an opportunity for a team looking for a custom tailored workspace. We currently are completing our final Phase III of our Basecamp build out.

We're seeking out our last few teams looking to customize their very own private workspace and join our #CommunityAtWork. We work with you directly to identify a floorplan and build out a private, tailored workspace. This is an exciting opportunity for a team looking to be involved in the overall design process.
